ISRAELI MEDICAL MISSION IN UKRAINE

MAIN AREAS OF ACTIVITY IN 2023

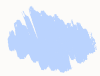

Charitable projects related to the organization of support for the health care system:

in the operation of rehabilitation centers, provision of medical equipment;

helping de-occupied communities through the organization of mobile medical outpatient clinics to provide primary consultation and diagnostic medical care

help in providing psychological support to those suffering from post-traumatic stress disorder due to the consequences of the war.

Humanitarian projects are related to the transfer of food, sanitary and hygienic products, medical supplies and products for the needs of rehabilitation centers, health care facilities where military personnel and/or civilians are treated and rehabilitated, as well as for the needs of individuals from the areas of possible hostilities.

ISRAELI MEDICAL MISSION IN UKRAINE

The mission of our foundation is to increase the level of access to high-quality, systematic, modern, multidisciplinary and timely medical care and rehabilitation for both civilians and military personnel.

The IMM strives to ensure and support the effective functioning of healthcare facilities and the ability of its patients to recover and rehabilitate faster and easier.

ANDRII KOZLENKO

Executive Director of IMM

In 2024, we will continue projects aimed at developing the functioning of rehabilitation centers, receiving and distributing humanitarian aid to medical institutions in Kyiv and other cities of Ukraine, promoting medical services using telemedicine, introducing modern medical technologies, and supporting national screening programs.
